Notice to Employees--Injuries Caused By Work

You may be entitled to workers' compensation benefits if you are injured or become ill because of your job. Workers' compensation covers most work-related physical or mental injuries and illnesses. An injury or illness can be caused by one event (such as hurting your back in a fall) or by repeated exposures (such as hurting your wrist from doing the same motion over and over).

Benefits. Workers' compensation benefits include:

- **Medical Care:** Doctor visits, hospital services, physical therapy, lab tests, x-rays, and medicines that are reasonably necessary to treat your injury. You should never see a bill. There is a limit on some medical services.
- **Temporary Disability (TD) Benefits:** Payments if you lose wages while recovering. For most injuries, TD benefits may not be paid for more than 104 weeks within five years from the date of injury.
- **Permanent Disability (PD) Benefits:** Payments if your injury causes a permanent disability.
- **Supplemental Job Displacement Benefit:** A nontransferable voucher payable to a state approved school if your injury arises on or after 1/1/04 and results in a permanent disability that prevents you from returning to work within 60 days after TD ends, and your employer does not offer you modified or alternative work.
- **Death Benefits:** Paid to dependents of a worker who dies from a work-related injury or illness.

1. **Get Medical Care.** If you need emergency care, call 911 for help immediately from the hospital, ambulance, fire department or police department. If you need first aid, contact your employer.

2. **Report Your Injury.**
